

THE TRIBUNE
DANVILLE, KY.
Friday, November 4, 1853.

"THE OLD DOMINION."—Richard Hill, in his new work entitled "Theory of Politics," with the observation that "there were more ideas in the head of Thomas Jefferson alone, than in all Virginia at this moment."

A Texas paper tells of a precious "boy" at San Antonio, who attempted to vote at the recent election, but his youthful appearance caused a slight suspicion, and he was challenged. It was then discovered that he was but thirteen years of age, notwithstanding he has a wife and child over one year old. He was married at the age of eleven.

UNCLE SAM'S FARMING OPERATIONS.—The last census showed that Uncle Sam is a thrifty farmer. The value of the crops of the United States for 1850, were as follows: Wheat, \$143,000,000; Indian Corn, \$391,200,000; Hay, \$190,275,000; Oats, \$70,840,000; Potatoes, \$73,125,000; Cotton, \$123,000,000; The whole crop being \$1,752,583,042. The animals slaughtered are worth \$183,000,000 per annum.

TURNED UP.—The last Maysville Express states that Ben. Rowan Hardin, who was reported to have been killed on the Isthmus some two or three years ago, it seems has turned up alive, and is somewhere in the South, his baggage having been sent home with letters to his family.

A call for a meeting of the mechanics and members of the bar, irrespective of party, appears in the New York papers, for the purpose of publicly expressing their sentiments at the "unparalleled outrage perpetrated by the Administration in removing the collector of our port on the simple ground that he would not allow himself to be used as a party tool."

The Democratic Republican General Committee of New York, have appointed a committee to "draft suitable resolutions expressive of the indignation of the national democrats in regard to the removal of Mr. Bronson, in consequence of his refusal to become the tool of Van Buren, Marcy and company."

FACT NOT TO BE SNEEZED AT.—We were informed that there is in Cincinnati one drinking and eating saloon, which nets its proprietor, annually, bigger wages than those given to the Governor of the State, and all the Judges of the courts in Cincinnati, and a great deal more than all the Editors of the city press combined, would have the conscience to ask. Rum and victuals are great inventions for bringing down the dimes.—Cincinnati Columbian.

IN PALMYRA.—A letter from Palmyra, Mo., dated Friday of last week, says:

"Last night at 2 o'clock the Post Office and all the frame houses on each side—eight in number—were burned to the ground. No letters can be obtained. I believe yesterday's mail from the East was saved. There is quite an excitement in town, and much sympathy for the sufferers. No one injured."

The Maysville Express, of Wednesday last, says:

"The depressed state of the money market has embarrassed, to some extent, our railroad operations. The Maysville and Lexington Railroad Company have been compelled to suspend work on some portions of the route, but they express a determination to complete the work this winter from Maysville to Elizaville, and from Lexington to Millersburg. The work upon the tunnels will also be kept up."

Hogs.—The Lebanon (Ky.) Post of October 26, says:

A few weeks ago hogs could have been and were engaged at \$2.50, in this county; now they are in demand at \$4. The result of this will be, remains to be seen. It, at least, has the tendency to make pork high in the county, at killing time, whether the prices keep up thereafter in the market or not. We heard the other day, that Mr. James Schooling engaged 5000 hogs of Mr. D. E. Ray, at \$4.50. If this is not up in the pictures, we do not know what is.

Some one thus sums up a few of the advantages of modern inventions:—One boy, with a Fourdriner machine, will make more paper in a twelve month, than all Egypt could have made in a hundred years during the reign of the Pharaohs. One girl, with a power press, will strike off books faster than a million scribes could copy them before the invention of printing. One man, with an iron foundry, will turn out more utensils than Tubal Cain could have forged, had he worked directly to this time.

A BAD PROSPECT.—It is announced on actual computation of some industries, and, perhaps, dry reporter in New York, during the first year of the existence of the Metropolitan Hotel, its consumption of wine was nearly seventy thousand bottles. This would only make two hundred bottles a day—one to every four patrons of the house. From this we might properly infer that it will be some days yet—at least several—before the Maine law can be executed in the commercial Metropolis of America.

An article in a late number of the Boston Atlas gives some interesting facts in relation to the destruction of vessels belonging to the United States, deduced from the marine reports and other sources. It appears that for a period of eighteen months, ending in September of the present year, 102 ships and bargues, 144 brigs, and 327 schooners were totally lost at sea. During the same period, 58 vessels which had previously sailed were never heard from, 335 put into port in distress, and 102 were passed. This says the writer, is a total loss for the given period one every 22 hours; one stranded every 33 hours, one abandoned every 75 hours, and one never heard from every 10 days.

Patent Office Report for 1852.

These elaborate reports from the Patent Office are gratifying indexes of the general industry of the country. The one for 1852 is full of valuable and interesting information. There were 2,639 applications received for patents during the year, and 4,020 patents issued. An application is rarely disposed of without being examined at least twice, and sometimes six times. Probably these 1,020 patents have cost 7,000 examinations.—This is the largest number ever granted in one year, except during the first year of Gen. Taylor's Administration, when Commissioner Ewbank issued 1,076.—Extensive additions have been made to the Patent Office buildings, and there is still a want of space.

Professor Renwick's Examiner's Report explains the principles of the celebrated Hobb's lock. Its "unpickability" depends upon a secondary or false set of tumblers, which prevent the instruments used in picking from reaching the real ones. Moreover, the lock is powder proof, and may be loaded through the key-hole and fired off until the burglar is tired of his fruitless work, or fears that the report of his explosions will bring to view his experiments more witnesses than he desires.

Doors and shutters have also been patented that cannot be broken through with either pick or sledge-hammer. The burglar's "occupation's gone."

The calorific power is described and commended at some length, but the report admits that "its end is not yet fully attained."

A harpoon is described which makes the whale kill himself. The more he pulls the line the deeper goes the harpoon.

An ice-making machine has been patented, which goes by a steam engine. In an experimental trial it froze several bottles of ice the size of a cubic foot when the thermometer was standing at 80 deg. It is calculated that from every ton of coal put into the furnace it will make a ton of ice.

From Dr. Gale's Examiner's reports we gather some ideas of the value of patents.

A man who had made some slight improvement in straw cutters took a model of his machine through the Western States, and after a tour of eight months returned with \$40,000. Another had a machine to thresh and clean grain, which in fifteen months he sold for \$60,000.—A third obtained a patent for a printer's ink, refused \$50,000 for it, and finally sold it for \$60,000. These are ordinary cases, while such inventions as the telegraph, the planing machine, and the india rubber patents are worth millions each.

Twenty-seven harvesters, fifteen plows, twenty-six seed planters, eight threshing machines, ten corn-hullers, and three horse rakes have been patented during the year, in addition to those now in use.

Six new saw mills, seven shingle splitters, and twenty new planing machines have been patented within the year.

Seven new machines that spin, twenty that weave, and seven that sew are also described.

Examiner Lane's report describes various new electrical inventions. Among these is an electrical whaling apparatus, by which the whale is literally "shocked to death." Another is an electro-magnetic alarm, which rings bells and displays signals in case of fire or burglars. Another is an electric clock, which wakes you up, tells you what time it is and lights a lamp for you at any hour you please.

There is a "sound gatherer," a sort of huge ear trumpet to be placed in front of a locomotive, bringing to the engineer's ear all the noises ahead perfectly distinct, notwithstanding the rattle of the train.

There is an invention that picks up pins from a confused heap, turns them all round, with their heads up, and sticks them in papers in regular rows. Another goes through the whole process of cigar making, taking in tobacco leaves and turning out the perfect article.

One machine cuts out cheese; another scoops knives and forks; another blacks boots; another rocks the cradle; and seven or eight take in washing and ironing.

There is a parlor chair patented that cannot be tipped back on two legs, and a railway chair that can be tipped back into any position without any legs at all.

Another patent is for a machine that counts the passengers in an omnibus and takes their fares. When a very fat man gets in it counts two and charges double.

There are a variety of guns patented that load themselves; a fish line that adjusts its own bait; and a rat-trap that throws away the rat, and then baits and sets itself and stands in the corner for another.

The truths of the Patent Office are stranger than fiction.

There is a machine also by which a man prints instead of writing his thoughts. It is played on like a piano. And, speaking of pianos, it is estimated that nine thousand are made every year in the United States, giving constant employment to one thousand nine hundred hands, and costing over two millions of dollars.

One class of inventions, we are glad to see, meet with deserved reprobation.—Whatever may be said of others, the examiners of the Patent Office are not likely to exaggerate, either from ignorance or design. This is their official judgement respecting "burning fluids."

"There is not much to be accomplished in perfecting artificial light; and it is to be regretted that inventors should be so generally satisfied with attempts on their part to render the use of dangerous materials, popular rather than occupy themselves with the search after something that could be used to supply this want, without endangering the safety of all who participate in its consumption."

"The desire to render the use of highly dangerous fluids less dangerous than they can be when burnt in lamps of the ordinary construction has given rise to a few improvements for which patents have been granted. Thus far, however, nothing has been invented which can render these compounds entirely safe; while the frequent and dreadful accidents almost daily recorded from their general use should prompt the public to the ut-

most care, if not to banish them from all dwellings, as moveable lights, and especially when burnt in lamps of fragile materials.—Albany Journal.

LATE FROM EUROPE.

New York, Saturday, Oct. 30. The Arctic arrived to-day with Liverpool dates to the 19th.

The Russians refuse to evacuate, and war is inevitable.

Constantinople was quiet.

On the 5th, Gen. Londers with the Russian corps was at Odessa awaiting marching orders.

Prince Gotschekoff, it is rumored, has replied to the Turkish summons, and refuses to evacuate the Danubian principalities.

Gen. Paskowitch has assumed the command of the Russian army in the principalities.

The combined fleets of France and England were preparing to advance to Constantinople.

Austria and Prussia remain neutral.

The Japan expedition returned from Jeddo, August 17th. Com. Perry has had several interviews with the two Imperial Princes. The Commodore delivered the President's letter, and the Japanese and Americans exchanged presents and expressions of friendship.

The strike at Lancaster is alarming; all the mills in Preston are closed, and 25,000 hands are idle.

Constantinople Oct. 6.—the city is tranquil. A part of the Russian army will go into winter quarters at Bucharest.

Odessa Oct. 6.—The Turkish declaration of war has been received. The corps of Gen. Londers is still in this vicinity expecting marching orders.

The greatest confidence prevailed in commercial circles.

The cholera has subsided.

The Times, speaking of the Turkish Manifesto, says that it is one of the strongest and most unanswerable State papers that has been issued during the present century.

The Porte says: "Morally, Russia is already defeated, and that she will be so materially."

Hostilities on the Danube and the shores of the Caspian sea are inevitable.

Despatches from Vienna of the 11th say that Prince Gotschekoff has replied to the Turkish summons, and that he has no authority either to commence hostilities, make peace, or evacuate the principalities; he therefore refuses to do either.

ADDITIONAL FOREIGN NEWS.

The Russian subjects in Turkey are placed under Austrian protection.

Turkey allows neutral flags on the Danube until the 25th inst., and no longer.

Austria and Prussia have recalled their subjects from the Turkish service.

Agitation is manifested in Italy.

Two hundred political arrests were made in Paris on the night of the 16th, among them M. Goudchoux, minister of finance under the Provincial Government.

The Turkish declaration of war is published in full. It is a temperate, but high-spirited document, and lays no embargo on Russian ships and fully protects the rights of commerce.

When the Czar heard that Turkey had declared war fell into a fury and swore that he would wage a war of extermination against the Turks.

Omer Pascha has notified the Russian commander to clear out from the Principalities before the 25th inst., or he would commence hostilities.

It is not supposed that the fighting will commence on the Danube, but in Gorgona or the Black Sea.

Old General Paskowitch takes command of the Russian army in the Principalities.

The combined fleets were observed on the 10th preparing to advance to Constantinople.

A battle was fought on the 27th between Schamyl and the Russians, in which the Circassians retired into the mountains. There was a heavy loss on both sides.

All is quiet in France. There has been no shipment of troops, but great activity at the navy yards.

Prussia and Austria have both given indications that they will keep neutral.

The French and English departments therefore consider the war as being confined to the Turkish frontier, and will not spread over Europe.

The various projected lines of railway in Western Virginia are rapidly enhancing the price of land. In Nicholas county, a large quantity of land, heretofore considered almost valueless, has been recently bought up by new settlers, principally from the eastern counties of the State. The late Lewisburg Era states that in one neighborhood alone, some 75,000 or 80,000 acres have been purchased in parcels from a few hundred to many thousands acres at prices 20 fold more than could have been procured a few years ago. The new settlers, it is said are importing hands from their late eastern homes, opening roads, clearing up land, and making every preparation necessary to make the "wilderness bloom as the rose."

CONTENTS OF AN EDITOR'S WALLET.—Bonner, of the Clinton (Mass.) Courier, while recently travelling, had his wallet abstracted from his pocket, by an adroit pickpocket while indulging in a short nap. The thief was so disgusted with the result of his exploit, that he returned the wallet, with the following note:

"You miserable skunk, hears your pocket-book. I don't keep no such. For a man dressed as well as you was to go round with a wallet with nuthin in it but a lot of noospaper scraps, an' a ivory tooth-comb, two noospaper stamps, an' a pass from a railroad director, is a contemptible impuration on the public. As I hear your an editor, I return your trash. I never robs any only gentlemen."

BLEEDING AT THE NOSE.—Dr. Negler, a French Surgeon, says that the simple elevation of a person's arm will stop bleeding at the nose. He explains the fact physically and declares it a "positive remedy." It is certainly easy of trial.

The revenue on sugar for the last five years has amounted to \$36,000,000.

The New York Herald, which so powerfully contributed to the elevation of Gen. Pierce to the Presidency, thus remarks on the removal of Mr. Bronson, from the collectorship of New York:

But whatever way it may turn out in the State, one thing is certain, and that is, that it will ruin the Cabinet beyond the hope of recovery, through the Union at large. It will kindle the national sentiment into a flame in which the administration will be consumed like stubble.—The popular feeling will be carried into Congress in all its vehemence, and we shall see whether the appointment of Herman J. Redfield will be confirmed by the Senate or not.

The Richmond Enquirer calls to mind the prediction that it made a month ago, that "the Administration would involve itself by interfering in the strifes of New York politicians. It could make no difference in which faction the administration might incline; in any event the impolicy of intervention was equally apparent, and scandal and trouble equally inevitable," and it admits that Mr. Guthrie made a great blunder by writing his letter to Mr. Bronson.

A new witness has appeared in the newspapers testifying to the facts which tend to show that Col. R. M. Johnson killed Tecumseh. The Col. was certainly brave enough to meet and kill a dozen Indians, and if he didn't kill Tecumseh, he no doubt would have done it if he had had a chance. He himself was often interrogated upon the subject, and his reply upon at least one occasion was capital: "They say I killed him—how could I tell? I was in too much of a hurry, when he was advancing upon me, to ask him his name or inquire after the health of his family. I fired as quick as convenient, and he fell. If it had been Tecumseh or the prophet it would have been all the same."

COMMISSIONER'S SALE.

WILL, by virtue of a decree rendered at the October Term, 1853 of the Mercer Circuit Court, in the case of B. Vansardale, Guardian of Isaac, Wm. H. and Burnett Vansardale, against John Vansardale and others, heirs of Simon I. Vansardale, dec'd, offer for sale on the premises, on Friday, November 15th, 1853, the Homestead and land residence of the said Simon I. Vansardale, dec'd, 14 miles West of Harrodsburg, immediately on the road leading from Harrodsburg to Maxville, containing

133 Acres.

This farm lies well, with a new turnpike road running along the north side, is well suited for a Stock Farm, with Water, a good Orchard and moderate improvements, and a good supply of excellent timber and the entire farm enclosed under fence, making it a very desirable place.

Said Land will be sold, in equal payments, on a credit of 8, 16, and 24 months from day of sale. Bonds, with approved security, to have the force and effect of a replevin bond, will be required of the purchaser, who will receive a certificate of purchase, stipulating for a conveyance on the part of Simon I. Vansardale's heirs, upon full payment of the purchase money.

B. VANSARDALE, Com'r.

There will be sold at the same time and place various articles of House and Kitchen Furniture, Bedding, etc.

JNO. HAYT.

Oct 21, '53 1f

Casey Farm for Sale.

I WISH to sell the FARM on which I now reside, in Casey county, on the Big-South Rolling-Fork, about 10 miles west of Hustonville, on the road leading from said place to Bradfordsville, and about 12 miles north-west of Liberty, the county seat, and on the road leading from said place to Springfield.

Containing about 900 Acres.

About 350 acres is now under fence, in a good state of cultivation, some 300 of which is set in Blue Grass; a portion of the balance yet to be improved and clear up, and all finely timbered. The Dwelling-house consists of a two-story Building, with 6 rooms, 2 above and 4 below, all large, with a Kitchen adjoining, a long Piazza in front, about 40 feet long, all comfortably finished off. Negro-house, Smoke-house, a large Barn, sheathed all round, Stables, Corn crib, &c.; 2 Apple Orchards on the premises of good Fruit, late and early; a good Spring near the house. Stock water plenty. Also, 2 other Cabins on the Farm, one of which is well finished off. The Farm is well adapted to the raising of Stock of all kinds.

A further description of the premises is deemed unnecessary, as any person desirous of seeing the place would find it so. No other marks recollected. He walks, trots and paces well. I will give a liberal reward for the delivery of the horse to me in Danville, or for such information as will enable me to get him.

SAML. W. BAILEY.

Oct 7, '53 1f

PREMIUM HATS.

N. B. A large stock of Blasting and Rifle Powder, for sale by the keg or at retail.

Oct 21, '53 1f

75,000 Dollars!!

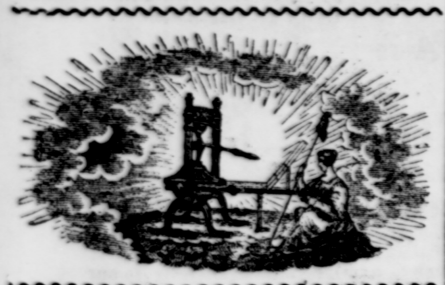

Marble Palace Wholesale & Retail DRY GOODS HOUSE!!

HAVING just returned from my Second Fall visit to the East, with stock of Goods superior to any ever brought to Danville, embracing a selection of the latest styles and at such REDUCED PRICES as to astonish the world! Our stock of

Merinos, Paramattas, Oriental Shawls, Cashmeres, Silk Velvets, Bay State DeLaines, Linseys, Cashmeres, Flannels, Satinets, Kerseys, Cloths, Boots, Shoes, Hats, Caps, &c. &c., will be found selected with great care, and of the latest winter styles.

TO THE LADIES: We particularly invite your attention to our splendid stock of Fancy Silks and general winter wear, which we will sell

At New York Prices! Come one! come all! and examine for yourselves.

Danville, Ky.,
FRIDAY—NOV. 4, 1853.

WOOD, &c.—Those of our patrons who owe us Wood, Flour, Meal, &c., or who have promised to bring us such articles, will do us a great favor, if they will bring them in immediately, particularly the last mentioned article. Fuel. Winter is upon us in earnest, and we cannot get along without good fires.

A PRESENT AS A PRESENT.—We acknowledge the receipt, from Mr. W. Burkhardt, of Louisville, of a fine lot of Preserved Peaches, Apples, Sardines, Fresh Salmon, Pickles, Sauces, etc., etc. Mr. B. is certainly a very discerning gentleman, as well as a very clever one, and has good judgment in the distribution of his presents. Let business men get on the right side of the printer, and our word for it, they will succeed. This fact is demonstrated in the case of Mr. Burkhardt, who now has the greater portion of the patronage of our business men in his line. He has secured this by advertising, selling none but good articles, and selling them at fair prices. He keeps the largest variety of goods in his line, to be found in the city, and we hope will long continue to enjoy an extensive patronage.—Such a man deserves it.

POTATOES.—The best of the season.—Mrs. M. J. BARBER, of this place has our thanks for a basket of fine Irish Potatoes—which, both in size and excellence, are far ahead of any we have seen this season.

THE BEST BEET.—We have received from Mrs. J. M. VAN DERKAM, of this county, a large red beet, which "heads" the one we noticed last week, just one pound in weight—this one weighing 7 pounds.

ROSSIER'S PAINTINGS.—The splendid paintings by Thos. P. Rossier, Esq., of "The Captive Israelites," "Return of the Dove to the Ark," and "Miriam and the Prophets," were exhibited in our town before crowded houses several days and nights during the past week. We would not attempt a description of these splendid works of art. We believe they are the finest paintings ever seen in the West, and no one should slight an opportunity to see them.

CORRECTION.—We stated a week or two since, that the trial of the Rev. John H. Brown was "deferred," by the Synod of Kentucky at its recent session in this place. This statement which we made upon the authority of several members of the Synod, we understand is incorrect. The case was referred to a committee, who reported on it; after which, upon motion of Dr. Humphrey, the prosecution against Mr. Brown was dismissed.

WE are authorized to announce JOHN W. PERDUE, of Franklin, a candidate for Door-keeper of the Senate.

We make the above announcement with more pleasure than usual upon such occasions. We have been intimately acquainted with Mr. P. for many years, and a more perfect gentleman, and a man better qualified for the office to which he aspires, than "Jack Pruett," does not live this side of sun-down. Of course, he will be elected, as such a body of gentlemen as compose the present Senate will not refuse to select an individual possessing feelings and characteristics harmonizing with their own, to perform the duties of Door-keeper.

We are not only desirous of seeing him Door-keeper, but we would, (without wishing to be considered impudent,) recommend him to the people of the 22d Senatorial District, as a candidate for Senator at the next election.

THE CRAB ORCHARD FAIR.—We publish this week a complete list of the premiums awarded at the Crab Orchard Fair held last week. The weather during the whole exhibition was exceedingly unfavorable, but notwithstanding this fact, the exhibition in each department was interesting. We had not the pleasure of being present ourselves, as was our wish, and regret our inability to give anything like an account of each day's proceedings.

NOTES ON THE TWENTY-FIVE ARTICLES OF RELIGION as received and taught by Methodists in the United States. By Rev. A. A. JIMESON, M. D. Cincinnati. 1853. 12mo. pp. 407.

We have received from the talented author a copy of the above work, for which he has our thanks. We find it a handsome well-printed volume. Of the style and quality of its contents, it is unnecessary perhaps for us to speak. Dr. Jimeson is well known as a man of talent, and that force, clearness, and sound logic which are characteristic of his pulpit efforts, will be found fully applied in his writings.

"THE NATIONAL MAGAZINE."—We have before us the November number of a periodical bearing the above title. It is embellished with numerous engravings, and in its reading matter presents an agreeable variety of articles on literary, and religious subjects. It is one of the handsomest monthlies we have ever seen. Terms, \$2 per annum. Carlton & Phillips, publishers, New York.

ARTHUR'S HOME MAGAZINE.—This is a book for the home circle—a moral, high-toned interesting monthly, edited by T. S. Arthur, whose writings can always be read with pleasure and profit. Each number is illustrated by one steel and numerous wood engravings. Terms \$2 per annum.

We have received the number for November, but not the one for October. Will Mr. Arthur please send us the latter.

HOGS.—Several thousand head of hogs are to be delivered in Louisville during this and the next month, at \$4.50 net. The Journal of Tuesday says the prevailing rates are \$4.75 and \$5 net—the former being offered and the latter asked. Jackson, Hull & Co., commenced slaughtering on Monday.

The telegraph reports 600 head sold at Cincinnati, at \$5.25, but a later dispatch reports hogs dull at \$5, with more sellers than buyers.

THE MONEY MARKET.—The New York papers report the money market as decidedly easier. There is said to be much less difficulty in negotiating loans upon good paper than for some time past. First class paper is quoted at 12 1/2 per cent. Call loans 7 per cent. The stock market is generally more buoyant.

Hon. J. F. Bell.

The following high and well-deserved compliment to our distinguished fellow-citizen, Hon. J. F. Bell, we copy from that sterling paper, the Frankfort Commonwealth. Wherever Mr. B. is known, the sentiment of this brief paragraph will be endorsed. He is a favorite, and has made himself so, not by the tricks which are characteristic of low electioneering, but by his unswerving devotion to principle and right, his dignified independence, his pride of character, and all those qualities of a true man, which entitle one to the respect and esteem of his fellow-citizens. We have seen him in public aid in private life, and believe that Kentucky has no son, who would more creditably fill any station within the gift of the people or their representatives. Nothing can truthfully be said against his political or social character. Though many may differ with him in opinion, in regard to State or National policy, his honesty is unquestioned—he has never sought the popular current, at the sacrifice of his honest convictions. The coming Legislature will have before it the name of no one who can confer more credit upon our State in the U. S. Senate, than the Hon. Joshua F. Bell.

"THE Danville Tribune suggests the name of Hon. J. F. Bell for the United States Senate. It could not suggest the name of a man of nobler soul, purer character, or finer talents. We may say of him as Judge Baldwin said of John Sergeant: "There's no position in government, high or low, that he would not fill to overflowing."

The Railroad

A number of railroad companies in different parts of the country have been compelled to suspend operation on their respective lines, in consequence of the state of the Eastern money market, and the difficulty of negotiating loans upon their bonds. A report has obtained circulation, that the work on some parts of the Lexington and Danville Railroad has also been stopped. We are authorized to say that this report is incorrect. The work is still progressing. A large force is employed on both ends of the road, and at other points on the line pushing it forward to early completion. In order to keep up the work, it is absolutely necessary and important that stockholders should promptly pay their subscriptions. If this is done, there need be little fear of any suspension of the work. If not, it may become necessary to wait for a change in the money market, and until those who have subscribed stock fulfill their contract by paying up.

TEMPERANCE ADDRESS.—Rev. JAS. YOUNG, P. O. W. P. of the Grand Division of Kentucky, delivered in our town, on Tuesday night last, one of the best and most effective addresses on the subject of Temperance, we have ever listened to. After the address, a petition for a charter to organize a Division of the Sons of Temperance was signed by a number of our citizens. The total number of petitions at present is 36. The Division will be organized by Dr. Breckinridge, Deputy Grand Worthy Patriarch, as soon as practicable. There is still room for more petitions.

FOREIGN NEWS.—We publish in another column the latest advices we have from Europe.—There has been no commencement of hostilities between Russia and Turkey, but the reported declaration of war by the latter is confirmed.—The news will be found interesting.

SENATORIAL ELECTION.—The special election for State Senator in the counties of Clarke, Powell, Montgomery and Estill, was held on Monday evening. Kohlhaas, Whig, and Riddle, Democrat, were the candidates. The Mt. Sterling Whig contains returns, official and reported, from all the counties, which show a majority for Kohlhaas of 315.

SINCE the above was in type we have received the official vote from the Lexington Observer and Reporter:

	KohlPass.	Biddle.
Clarke,	750	328
Montgomery,	361	299
Estill,	271	407
Powell,	112	124
	<hr/>	
	1494	1149
	1149	
	<hr/>	
Kohlhass' maj.	345	

MR. STERLING WHIG.—This excellent paper has been purchased from Mr. Scott by Geo. E. GREENE, Esq., recently President of the Louisville Typographical Society. Mr. G. is a practical printer, and a good writer. He has our best wishes for his success.

METHODIST COLLEGE at Mt. Sterling.—A meeting was called for the 2d inst., in Mt. Sterling, Ky., to take into consideration the propriety of making an effort to locate a college in that town. This, it is understood, has reference to the contemplated organization of learning by the Kentucky Conference of Methodists.

IMPORTANT FROM WASHINGTON.—The National Democratic Committee, says a dispatch from Washington, dated Oct. 23, are to call a national convention of the Democratic party, at Baltimore, about the time of the meeting of Congress. The object is to take into consideration "the state of the Union," as illustrated in the conduct of the present administration. They will determine the question whether the Baltimore platform has been properly understood by the Cabinet, and whether their policy meets the approbation of the people. The Southern States will be fully represented, as will the anti-freedom party the North and West.

ANOTHER FIRE IN LOUISVILLE.—The tobacco establishment of J. F. Bast, on Main street, north side, between Second and Third, and the whole sale grocery and commission house of E. B. Burt, were destroyed by fire on Tuesday morning last. The buildings were old and dilapidated, and the owners contemplated tearing them down in the spring. The losses were mostly covered by insurance.

THE SUGAR CROP.—The New Orleans Picayune says the sugar crop of Louisiana will not be inferior, either in quantity or quality, to what it was in either of the last two years. Sugar planters in various parts of the State have commenced grinding.

THE cotton crop in several sections South has been very severely injured by the late frosts.

TENNESSEE U. S. SENATOR.—Hon. John Bell has been re-elected to the Senate of the United States by the Legislature of Tennessee for six years from the 4th of March, when his present term expires.

ANOTHER COMET.—According to an English paper, another comet is taking a tour through the heavens, within the scope of our earthly vision. It was discovered at Berlin, on the 11th of September, and on the 15th of October was visible to the eye. The head equaled in brightness a star of the fourth magnitude, and the tail could be traced about one degree. It had a rapid southerly motion.

Institution for the Deaf and Dumb.

We learn that the present session of this institution has opened with sixty-five pupils, (a larger number than has been in the institution at any former period,) with the prospect of an additional number. THERE ARE YET OVER FOUR HUNDRED UNEDUCATED MUTES IN KENTUCKY. The number of pupils in the institution has been gradually increasing from year to year, and will no doubt continue to do so, until the annual number is sufficient to educate all the mutes of the State, susceptible of education.

This increase of pupils will require an enlargement of a portion of the buildings, and we learn that an application will be made to the next Legislature to effect this object. Without such an enlargement, the present number cannot be received. We hope that an appropriation as large as may be needed, will be granted. It is the wish of the people of the State that sufficient and comfortable accommodations should be afforded to all the unfortunate mutes who may be brought to the institution. Toward the purchase of the grounds and the erection of the present buildings, the State has contributed only four thousand five hundred dollars in the course of thirty years. While other States have erected edifices, varying in cost from thirty to seventy-five thousand dollars, the Kentucky Institution has contented itself with buildings hardly sufficient for the comfort of its pupils. The Legislature cannot and will not deny an application for an appropriation to keep its pupils at least in comfort. Indeed we think the officers of the institution may be liable to censure for not having made applications heretofore for enlarging its accommodations. In public institutions, people expect something more imposing than in a private residence, and accommodations ample and, in all respects, comfortable, but to meet such expectations and demands, the Legislature must grant the necessary means.

THE JAPAN EXPEDITION.—A late arrival from Europe brings the information that Commodore Perry's squadron has reached Japan, and was well received. Negotiations have been postponed until spring.

"ONE hundred young men have left Richmond, Me., for Kentucky, where they intend to cut timber and build vessels. This is a new enterprise, and with the bone, sinew, and go-ahead-attitude of Maine mechanics, it cannot but succeed. More mechanics will follow soon. The vessels built will be floated down the Ohio and Mississippi rivers.

THE Legislature of Vermont has elected Robinson, (democrat) Governor, by a large majority.

A dispatch from New Orleans, dated October 29, says that the weather is clear and frosty, and that the health of the city is completely restored. There is great anxiety to hear of a rise in the Ohio.

DR. TRIMMEL, who was arrested some weeks ago in Boone county, for stealing negroes and sending them to the southern market, has taken a change of venue to Kenton county. The trial will come off at Independence in December next. It will be recollected that his bail was fixed at the high sum of \$17,000; it has been reduced to \$11,000, in default of which he is still in prison in the Ohio.

THE Burning Woods.—The Detroit Democrat says: Last night about dark it commenced raining; and kept it up slowly, but surely, all night. Our streets are pretty thoroughly drenched, and the fire in the woods must be by this time nearly extinguished. This will be glorious relief to the farming community in this vicinity.

EUROPE is just now threatened with the cholera and a scarcity of bread, and it will be superadded by man to those scourges of God, the record of the coming year will form one of the most horrible chapters in modern history.

A WARNING TO BOYS.—Moses and Robert Kelly, brothers, were executed at Haverhill, Ky., on Friday last, for the murder of Gardner, Miller and Holton on the flatboat Eliza, No. 2, near Troy, Indiana, last fall. They confessed their crime, and warned the young men present "to flee from bad company." Moses remarked that "drinking, gambling and indolent companions had placed him where he was."

COL. D. S. GOODLEE, of Lexington, has been elected Major General of the 5th Division Kentucky Militia.

MR. DIXON and the SENATE.—We find in the Henderson Courier the following paragraph: "Mr. Dixon.—Although we stated in our last issue that Mr. Dixon proposed to be a candidate for the U. S. Senate, yet we believe that if it be the wish of his friends he will serve them."

LETTER FROM JUDGE BRONSON.—The Washington Sentinel publishes a letter from Judge Bronson, written, we suppose, since his removal from office, defending himself from the charge made against him by Secretary Davis that he had been an advocate of Free-soilism, and had advanced Free-soil sentiments in a letter addressed to Mr. Van Buren in 1848. He denies that he ever had more than one opinion, or had acted in more than one way in relation to the Slavery Question. He contends that in the letter referred to, he declined Free-soil associations, and opposed Free-soil opinions, and concludes as follows:—

"On the general constitutional question, the opinion was expressed that slavery could not exist where it was not authorized by law, and consequently, if the master removed with slaves into a free State or Territory, the slaves would be free. Whether that opinion, so far as relates to the Territories of the United States, was well founded, is a question which was at some time to be considered by the courts of justice, and by their decision I shall abide. But, as yet, I have seen no reason to change my opinion on the subject. I shall not, therefore, invoke the aid of the compact of 1852 to cover up any old heresy in politics."

(Signed.) GREEN C. BRONSON.

The Sentinel, in commenting upon the letter, makes a strong appeal to the Southern Democracy—not to desert those Democrats of the North who have heretofore sustained and upheld the guarantee of the Constitution in the face of defeat and overthrow.

THE RAILROAD BRIDGE.

We copy the following letter from the Richmond Messenger of last week:

MADISON COUNTY, Ky., Oct. 26, '53.

Mr. Editor.—Believing it will be gratifying to a number of your numerous readers, I will let say that in company with some of my friends on last Saturday morning, we were present at the laying of the first corner stone of the towers of the bridge now being constructed just below the mouth of Dix River. To me it was a great curiosity, and will amply compensate others to see the great improvements now in progress on the railroad now being constructed from Lexington to Danville. Elder Strober Cook and myself, placed a silver corner stone, and said corner stone, there to remain until the wreck of matter and the crash of this world. The managers of this part of the work are friendly and polite gentlemen.

Yours, R. N. COPPEE.

THE Louisville Democrat of Monday says: The Hon. A. Dixon, United States Senator, was married on Saturday last to Miss Susan B. Smith, daughter of Wm. C. Ballitt, Esq. of New York. We observed that Gov. Powell was on hand to attend the nuptials of his old friend, partner and competitor for the office of executive of this commonwealth. So good an example ought not to be lost upon the Governor.

THE Dayton (Ohio) Item, says that Mr. Degraff, the railroad contractor, has discharged a large number of his hands in consequence of the state of the money market.

LIST OF PREMIUMS

AWARDED AT THE FIRST ANNUAL FAIR AT CRAB ORCHARD, KY.,

On the 26th, 27th and 28th of October, 1853.

FIRST DAY.

Five Jeans, 2 entries, Mrs. James Crow, Lincoln, prem.; Mrs. Walter Wesley, Lincoln, cer. White Flannel, Mrs. E. J. McGilchrist, Lincoln, prem.

Linsey, 2 entries, Mrs. James Crow, Lincoln, prem. and cer.

Blankets, 4 entries, Mrs. E. J. McGilchrist, Lincoln, prem.; Mrs. W. C. Montgomery, Lincoln, cer. Rag Carpet, 6 entries, Mrs. Walter Wesley, Lincoln, prem.; Mrs. Ann Nelson, Lincoln, cer.

Woolen Carpet, 3 entries, Mrs. John Owensley, Lincoln, prem.; Mrs. A. McRoberts, Lincoln, cer. Half Rose, 2 entries, Mrs. E. J. McGilchrist, Lincoln, prem.; Mrs. E. M. Saunders, Lincoln, cer.

Rifles, Shot Guns and Pistols.
If repairing done in a neat and workmanlike manner, and on the shortest notice.
Danville, Aug. 12, '53

DR. GEORGE HANCOCK'S
Extract of Hydropiper,
A CURE FOR
Dyspepsia, Scrofula & Skin Diseases.

DR. GEORGE HANCOCK, a Graduate of the University of Louisville, and a Practitioner of high standing, after many years of hard study and numerous experiments, has succeeded in obtaining an essential remedy from the Hydropiper, which, combined with other Vegetable ingredients, set forth in his published recipe, forms a most valuable and Efficacious Remedy for many Chronic Diseases. Unlike Sarsaparilla, it is quick in action, the first bottle often producing wonderful results, as in the case of the negro girl of Mrs. Simmons, of Louisville, who was
Relieved of Bitchiness in One Week.
This is no humbug, no catch-penny, neither is it a nostrum, as

The Recipe Accompanies Each Bottle.
That it is a most valuable Medicine is evident from the fact of its being
Prescribed by Physicians
And from the numerous testimonials from the first citizens and Physicians of Kentucky. In short, it has excited the wonder and admiration of all who used it, and it now stands at the head of all Remedies for the cure of the following Diseases: Dyspepsia, Scrofula or King's Evil, white Swelling, Bites, Pimples, Itch, Tetter, Ringworm, Salt Rheum, Scald Head, Old Sores, Ulcers, Erysipelas, Fever Sores, Relics of Syphilis, all Eruptions of the Skin, Rheumatism, Neuralgia, Gout, Hip Disease, all Kidney Diseases, Seminal Discharges, all Venereal Diseases, Liver Disease, Sick Headache, Sore Throat, Night Sweats, water Brash, Heart Burn, Negro Consumption, and as a general Tonic and Purifier of the Blood, it has no equal. The Agents are in possession of testimonials (which may be seen at any time), from men holding the highest offices in the country. The afflicted are desired to call and get a circular.

RAYMOND & PATTEN, Sole Agents,
To whom all orders for Hydropiper or Agencies should be addressed.
If For Sale in Danville by
A. S. MCGRORTY,
And by Medicine Dealers generally.
May 13, '53

R. R. R.
Its Modus Operandi:
It instantly stops Pain!
It instantly checks Disease!
It instantly removes its Cause!
It instantly cures its Effect!

Raymond's Ready Relief
Will stop the most tormenting Pains!

TAILORING!
BARKER & BRYANT
RESPECTFULLY inform their friends and the public, that they have entered into partnership, and both having had considerable experience in their business, and both being practical workmen, they believe that they will be able to please and to outperform their competitors in good fits and workmanship. They solicit a fair share of the patronage of the public. Their Shop is at the old stand of Russell & Barker, next door to Gore's Confectionery, and immediately opposite the Central House.
If calling on all kinds of Gentlemen's apparel promptly attended.
BARKER & BRYANT.
Danville, April 16, '52

M. Seely's Patent Distilling
Lard and Oil Burner.
THIS is an entirely new and novel Lamp, combining the following advantages:
Any kind of COMMON GREASE may be used in the distiller making Pure Oil out of such grease. Pure boiling oil is sent to the flame, which makes the burner give a far better light than with oil partially warmed. A wick two inches long will last a month. They rarely need snuffing, because the oil being sent to the flame at the base, the wick is constantly full of flame. They require no oil in the bottom, and the top being light, they are not easily upset, and should they be, little or no grease will spill. And, lastly, they are NEAT, CHEAP and DURABLE. For sale in Danville, by
G. W. COLLINS.
June 3, '53

W. A. WATKINS.
500 LABORERS
On the Lexington & Danville Railroad, between Nicholasville and Danville, to whom the highest wages will be paid and constant employment given.
The work is heavy and dry. The country is one of the most healthy to be found North or South.
